Flowering the world

Gerbera

Collection 2014-15

Our new catalog offers you an even wider choice of varieties!

At Florance Flora, we have had another great growing season and we are happy to offer many more varieties than last year.

The most recent and actively developing sectors of floriculture are pot flowers and landscape design. As a result of constantly striving to follow the trends in floriculture, we are one of the largest players in the market of pot plants in India.

Florance Flora is involved in tissue culture production of plants, production and supply of quality young plants for cut flowers, flower trading, pot flowering plants. We are a leading floriculture company in India with high quality products, widespread cross country presence, international associations with leading companies and backed by 40 years of experience. We continue to make significant investments at our facilities to increase the product quality to world standards. To serve our industry is our passion.

Please feel free to contact us for any additional information.

Happy growing to all!

S.K. Gutgutia

Our sister concern: Agrifarm Corporation

Agrifarm Corporation is a supplier of modular water storage tanks.

We provide simple, efficient and cost-effective solutions for water storage. These steel tanks can be supplied up to a capacity of 25.0 lakh litres. They are manufactured in Holland and assembled here as per requirement. Quick installation (1500 m³ in 5 days), easy maintenance, large capacities, high heat tolerance, durability and absence of algae formation make them ideal for water storage.

www.agrifarmcorp.com

Our products enable storage of clean water virtually anywhere at low costs due to ease in transportation and installation.

AFC is the sole agent of NPI B.V, Holland in India.

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion. This increase is expected to be concentrated in the developing countries, where the population is expected to increase from 1.1 billion to 1.4 billion.
